What's new in RPG Maker MV - Seraph Circle Monster Pack 3:

The Savage Halloween Soundtrack is the soundtrack for 1997 American slasher film Savage Halloween, directed by Don Coscarelli and starring Kathleen Robertson, Charlie Sheen, Brinke Stevens, Dwight Schultz, Vincent Schiavelli, Michael J. Pollard, Tom Arnold, Madolyn Smith, Rick Overton, Colleen Zenk and Keith Daniel Rawley. The soundtrack features music by Sean Crawford, John Murphy, Mike Roe and Split Lip Rayfield, as well as songs by labelmates Ludacris and G-Unit. It was released on August 19, 1997, on Priority Records, and peaked at number two on the Billboard 200, selling 147,000 copies in its first week. The soundtrack was met with critical acclaim, with Robertsons' horror-film role being singled out as the highlight. The album spawned the singles "Opportunity" and "I'm So Sorry". The former reached the top 10 on the Billboard Hot 100, peaking at number nine, while the latter entered the top 20 in several countries, including Australia and the United Kingdom. Background and composition The soundtrack album is the first release from American rapper Ludacris, who previously worked with his labelmates at Interscope Records. The soundtrack was also the debut EP release by G-Unit and their labelmates The Game, but in this case both acts collaborated with label bosses Interscope Records. G-Unit's labelmates at the time, Bad Boy Records, were owned by Sean Combs and while at Interscope, Robbins played guitar on Ludacris's songs. The track listing includes Ludacris's departure from Interscope Records and his signing with Def Jam Recordings, as well as that it was his first musical album. The song "Opportunity", written and performed by Ludacris, is the soundtrack's lead single, and as it was the first song released from the soundtrack, some tracks have their instrumentation altered. "I'm So Sorry", a single by G-Unit with contributions from The Game and Papoose, is the album's second single. For the album's production, Sean Crawford, John Murphy, Mike Roe, and Split Lip Rayfield worked together, with Ludacris, Game, and Papoose handling the vocal duties. Critical reception In the Christgau column for The Village Voice, Robert Christgau wrote: "Ever since An American Werewolf in London, Hollywood's grown more practical, realistic

Q: How to integrate the sine function? My question here is pretty simple. I'm trying to solve a problem (it is probably a easy one), but I keep receiving a division by zero error. The problem is the following: As shown here, the problem is to

express the integral of the sine function from 0 to 1 as a fraction. The answer given is 0, which I don't really get why. The indefinite integral is just 1, so I would say that the problem is with the delta x. I have been using the Riemann integration theorem. Any hints or suggestions will be more than welcome.
